ABOUT ME

I am a computer science student specializing in business informatics from Helsinki. My passion has guided me to learn and apply new technologies, leading to a strong expertise in data analysis and business intelligence (BI) tools. My ability to make data-driven decisions and provide insightful perspectives through data is a key strength of mine.

I have also developed a significant skill set covering server-side development using programming languages such as C# and PHP, as well as .NET and MySQL database environments. I have focused particularly on the use of MS SQL and MariaDB in my projects, which enhances my expertise in diverse development environments.

Regarding web development, I have gained experience in the fundamentals of building websites, including HTML, CSS, and JavaScript, while delving into modern technologies such as TypeScript and Vue.js for constructing dynamic user interfaces. This versatile skill set has provided me with a solid foundation and the ability to develop innovative solutions.

Furthermore, I have practical experience in using Microsoft 365, served as a Scrum Master, utilized DevOps practices, and mastered Git version control. My continuous desire for learning and ability to apply new knowledge in practice motivate me to constantly seek new challenges and develop my skills.

WORK EXPERIENCE

reception / guard
ISS Services [10/08/2022 – Current]

City: Helsinki
Country: Finland

I worked as a responsible employee in the areas of access control, maintenance of fire alarm systems, and reception of visitors. My duties included monitoring and managing access to premises using access control systems, as well as ensuring the operation and maintenance of fire alarm systems. Additionally, I was responsible for receiving and appropriately directing visitors. My tasks required attention to detail, quick responsiveness, and excellent communication skills. I also participated in managing situations and problem-solving as needed to ensure a safe and efficient working environment.

Security guard
Avarn Security [01/07/2019 – 01/08/2022]

City: Helsinki
Country: Finland

I worked as a security guard at various locations, where my responsibilities included maintaining security and surveillance. Additionally, I served as a site supervisor, which involved overseeing the safety of the premises and guiding personnel. My duties included implementing access control, as well as monitoring and maintaining surveillance cameras in demanding environments.
